Conversation in light mode

A quiet chat surface with an obvious document handoff.

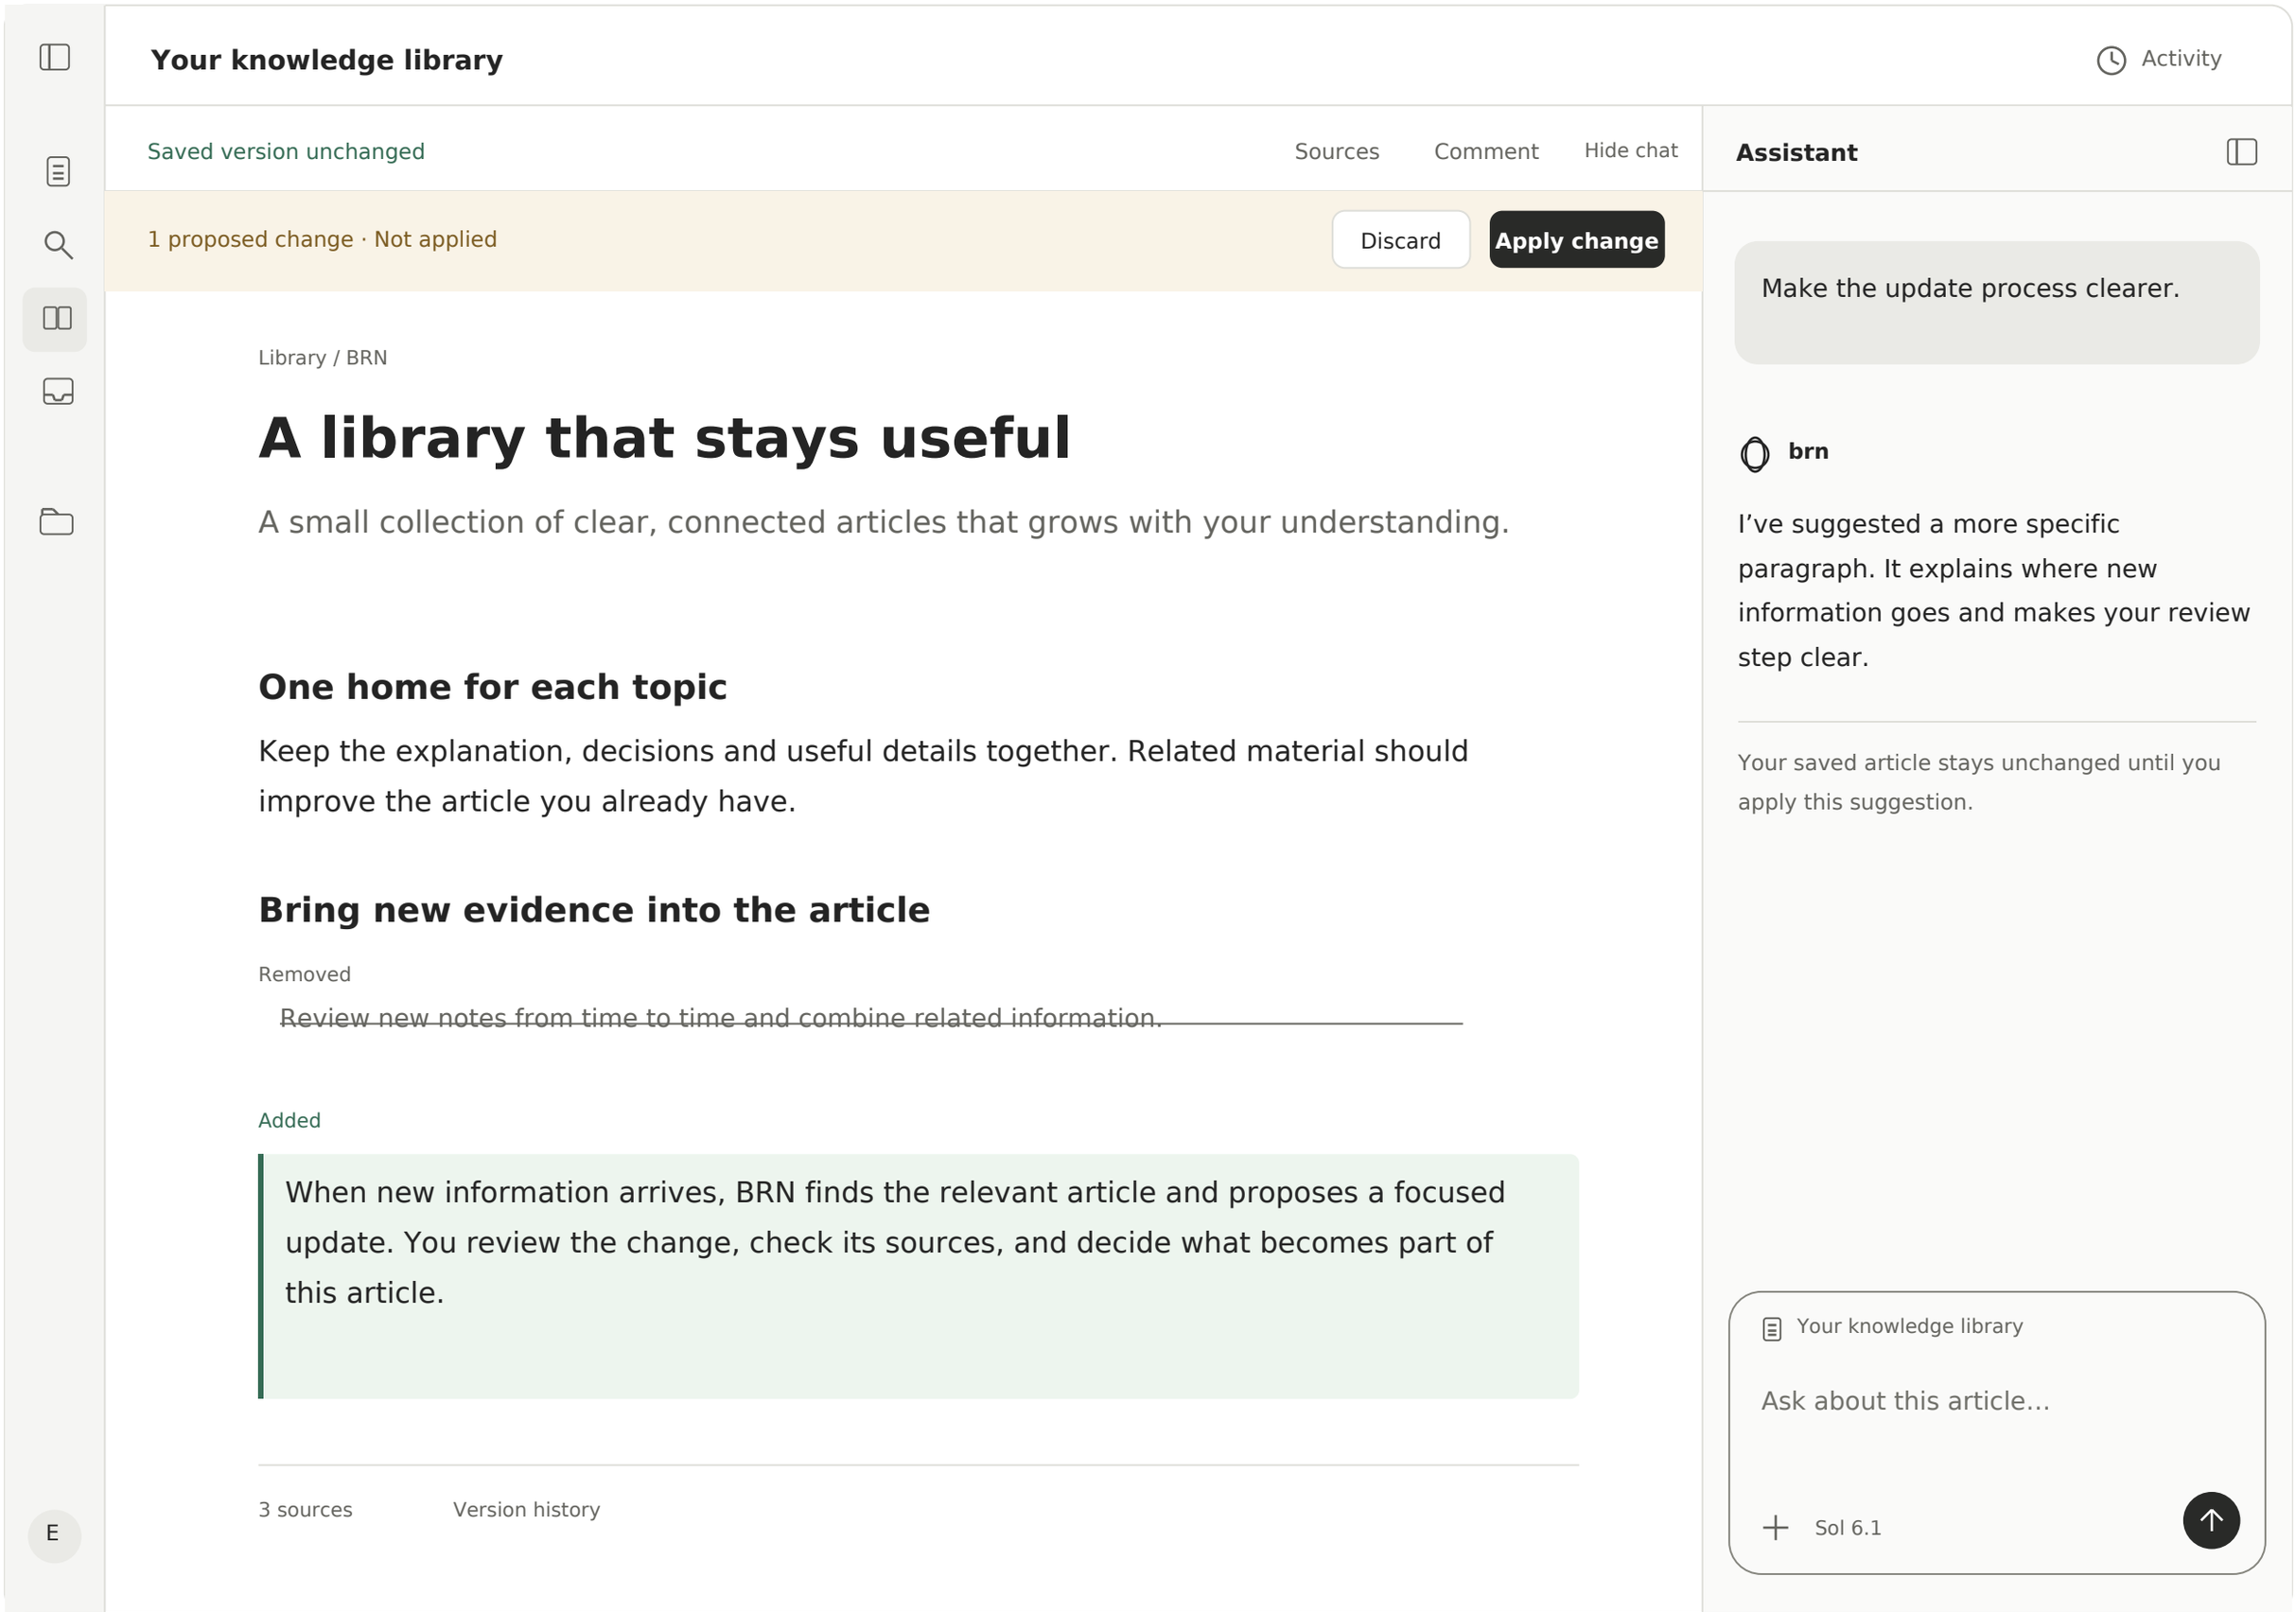

Conversation in dark mode

The same hierarchy with paired dark surfaces and readable secondary text.

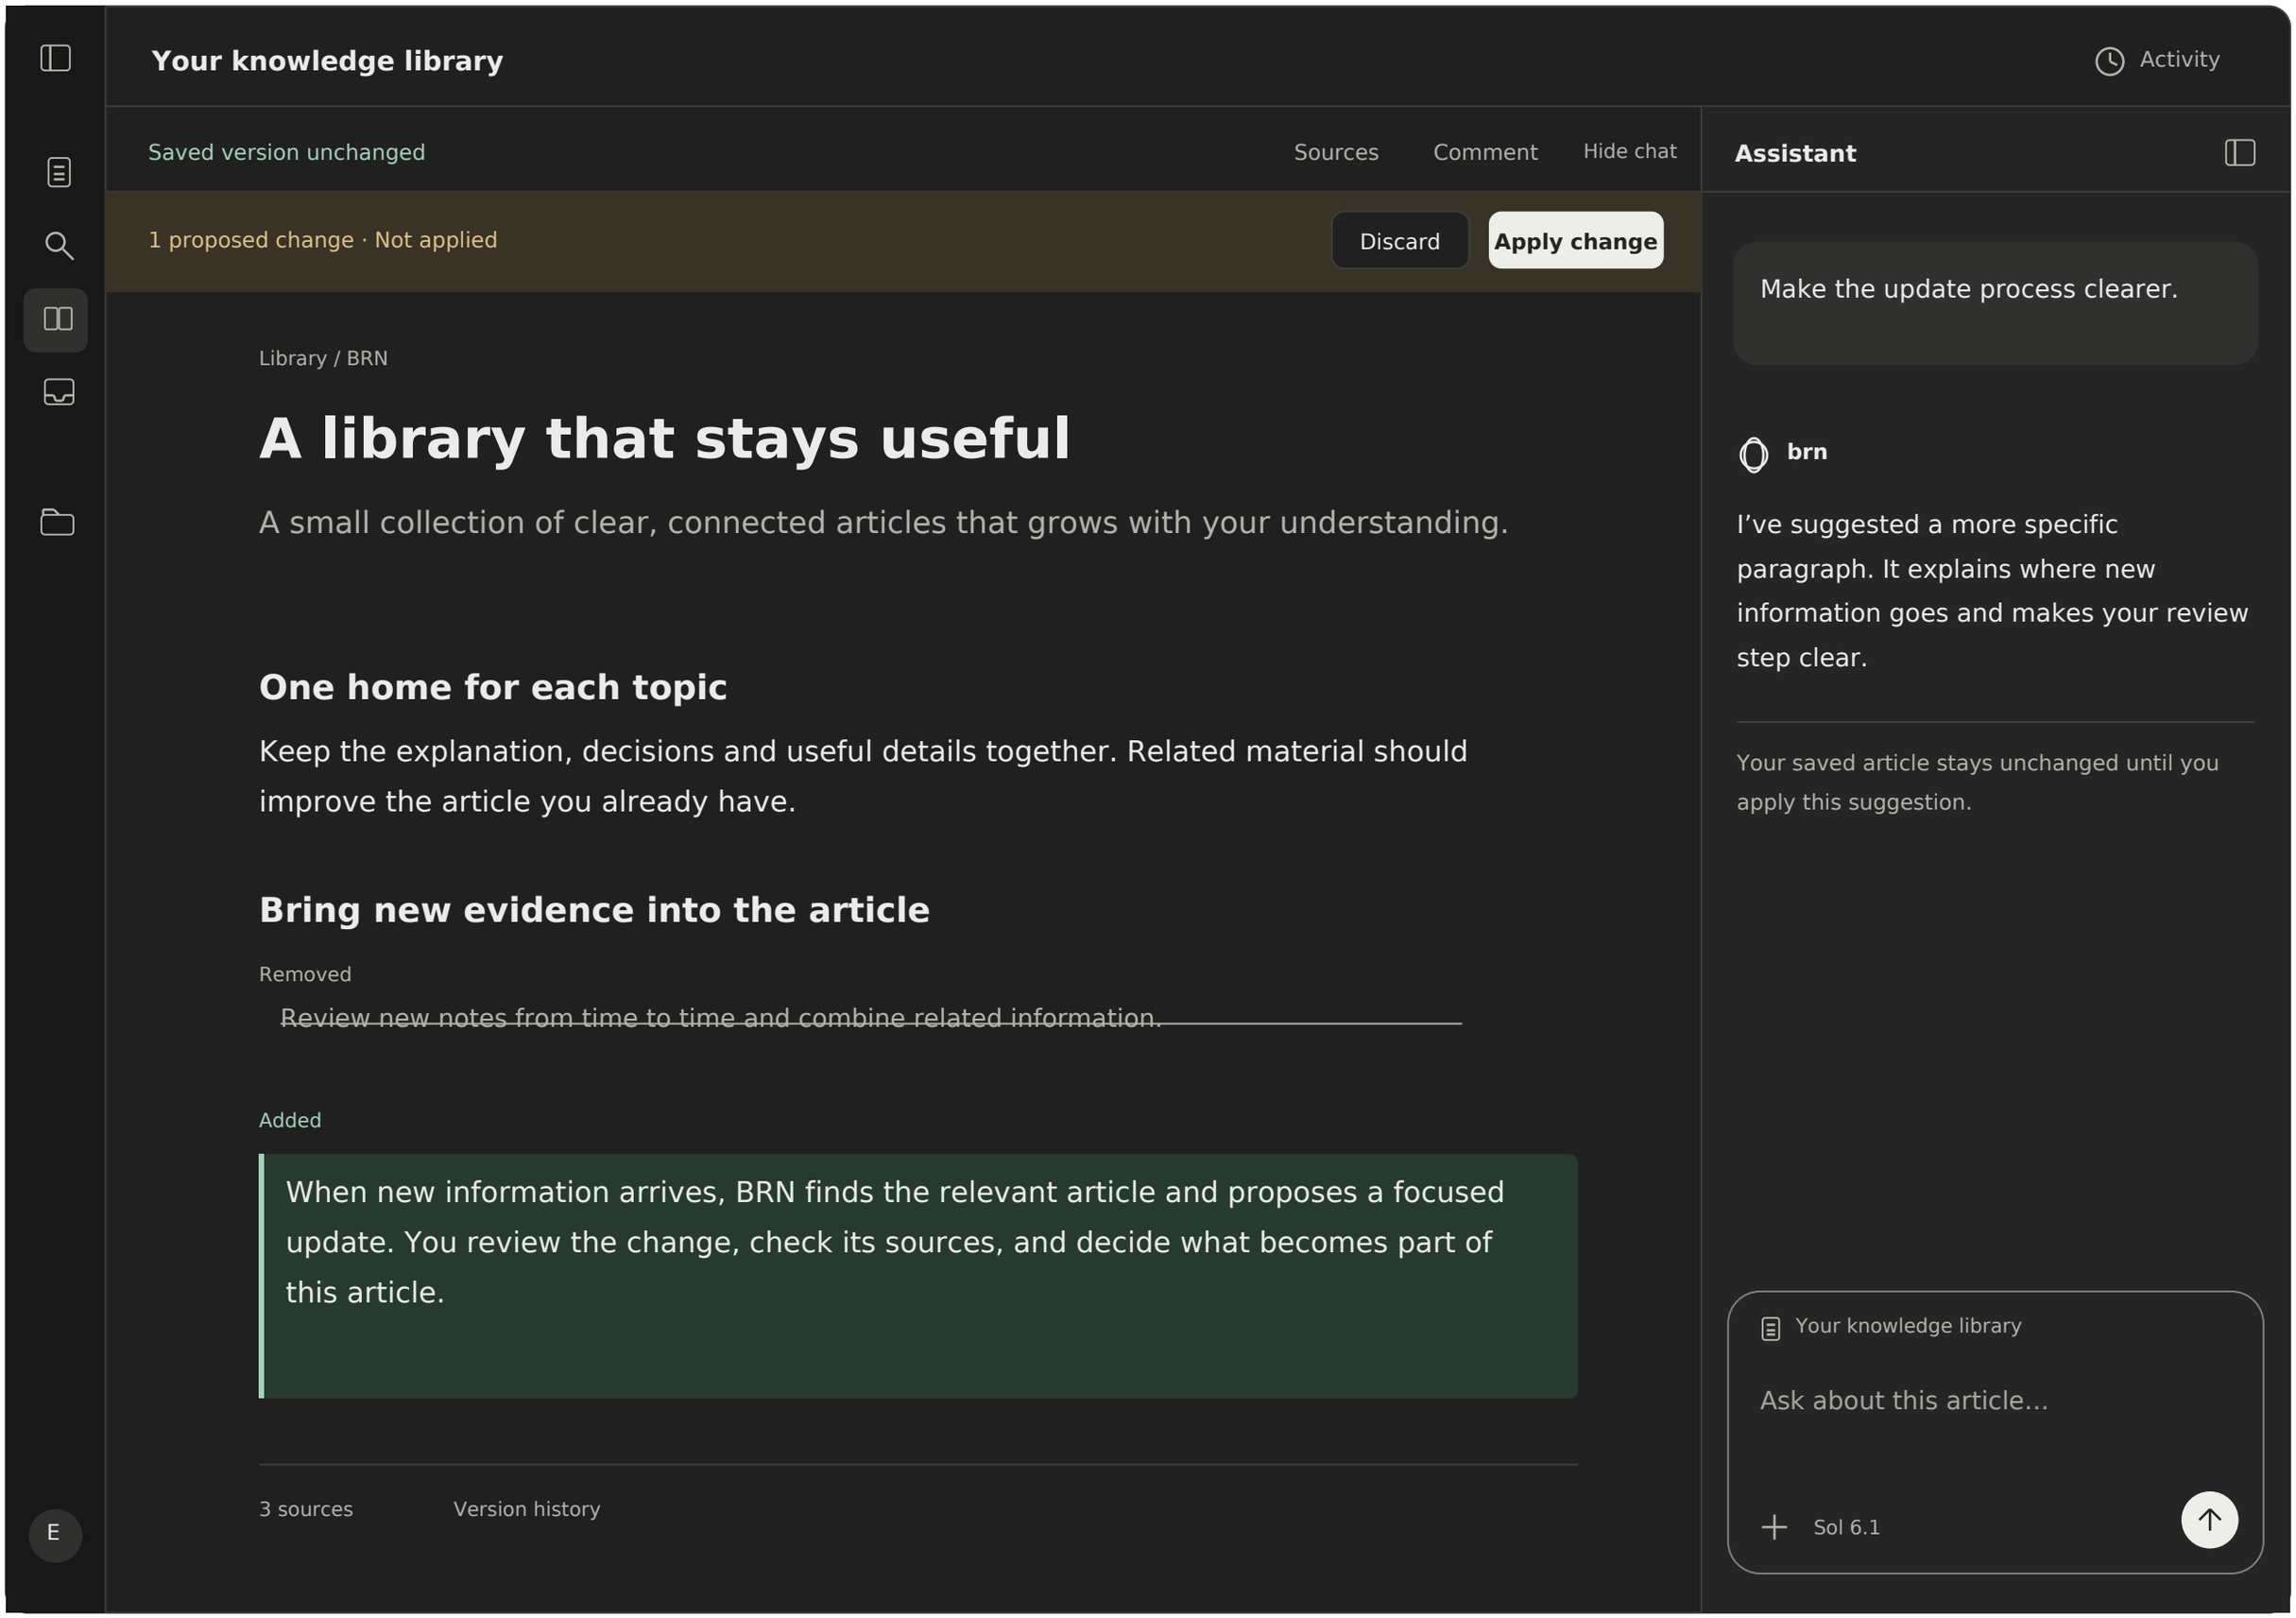

Writing and review in light mode

The document leads. Proposed edits stay distinct from the saved version.

Writing and review in dark mode

Review colors retain labels and contrast. The assistant can be hidden.

Library in light mode

Articles are the main view. All files keeps original supported items reachable.

Library in dark mode

A readable article list with restrained metadata and clear navigation.

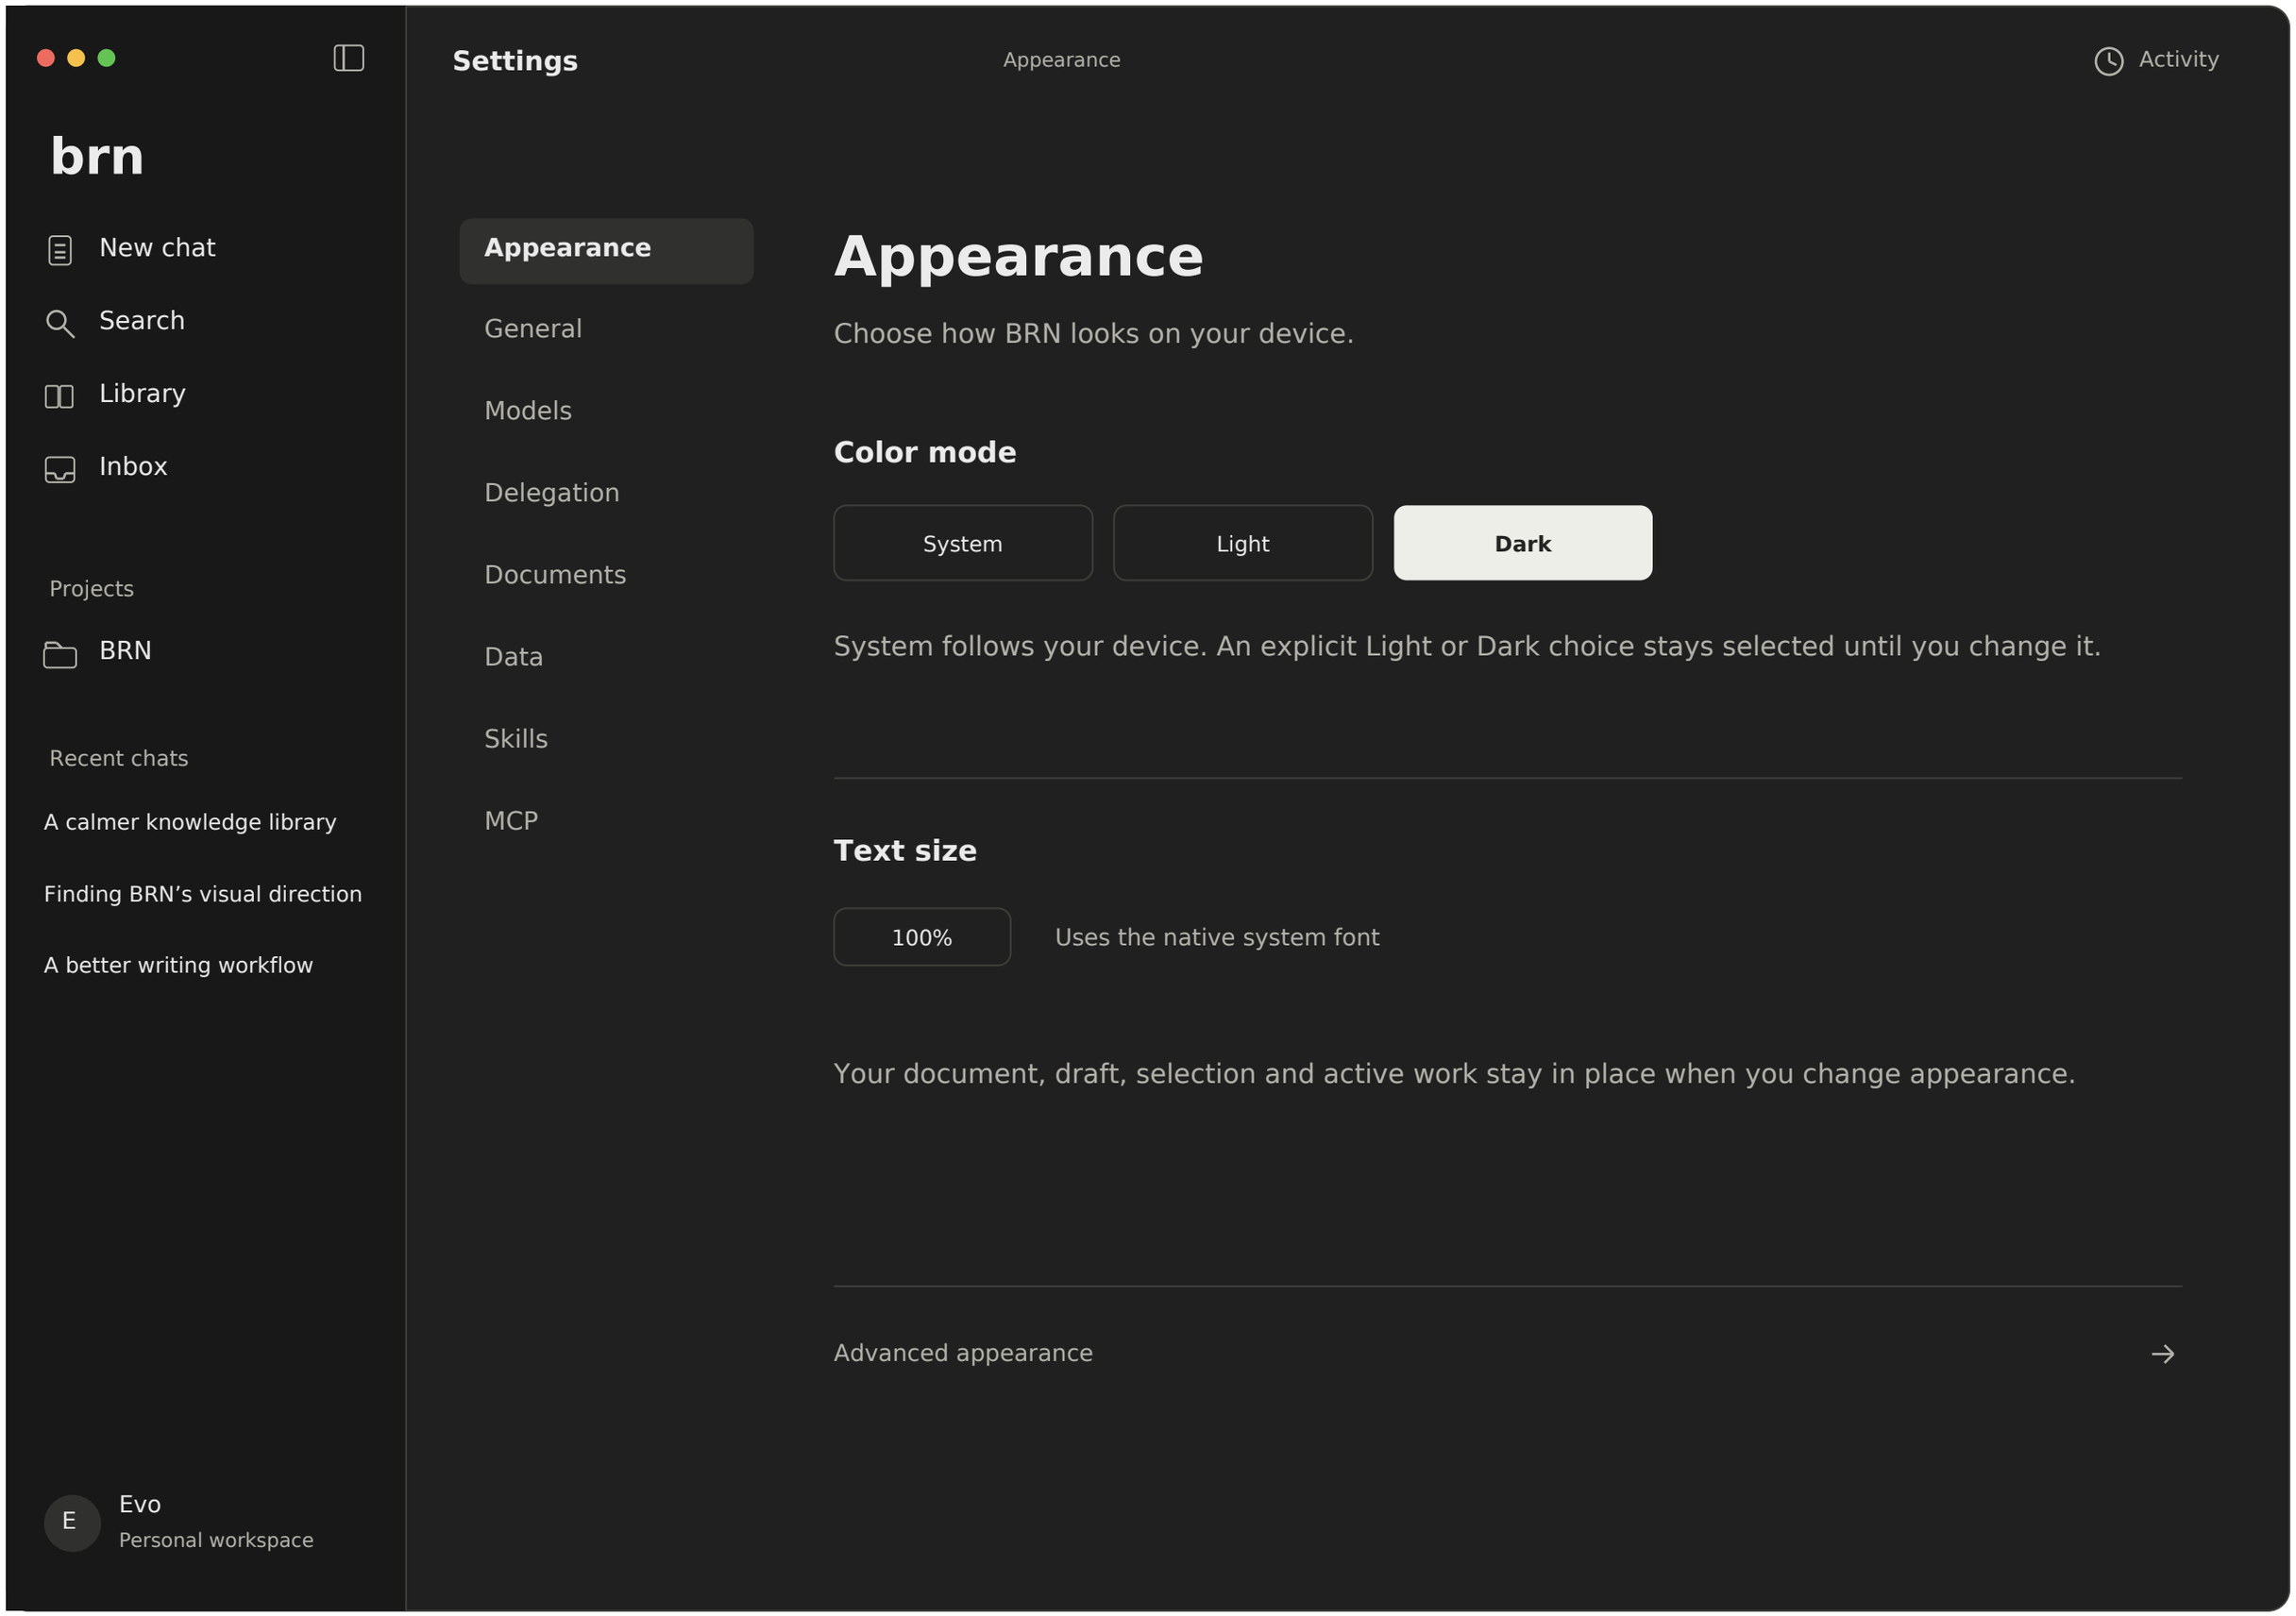

Inbox in dark mode

Attention, imports and tasks have a shared home with distinct meanings.

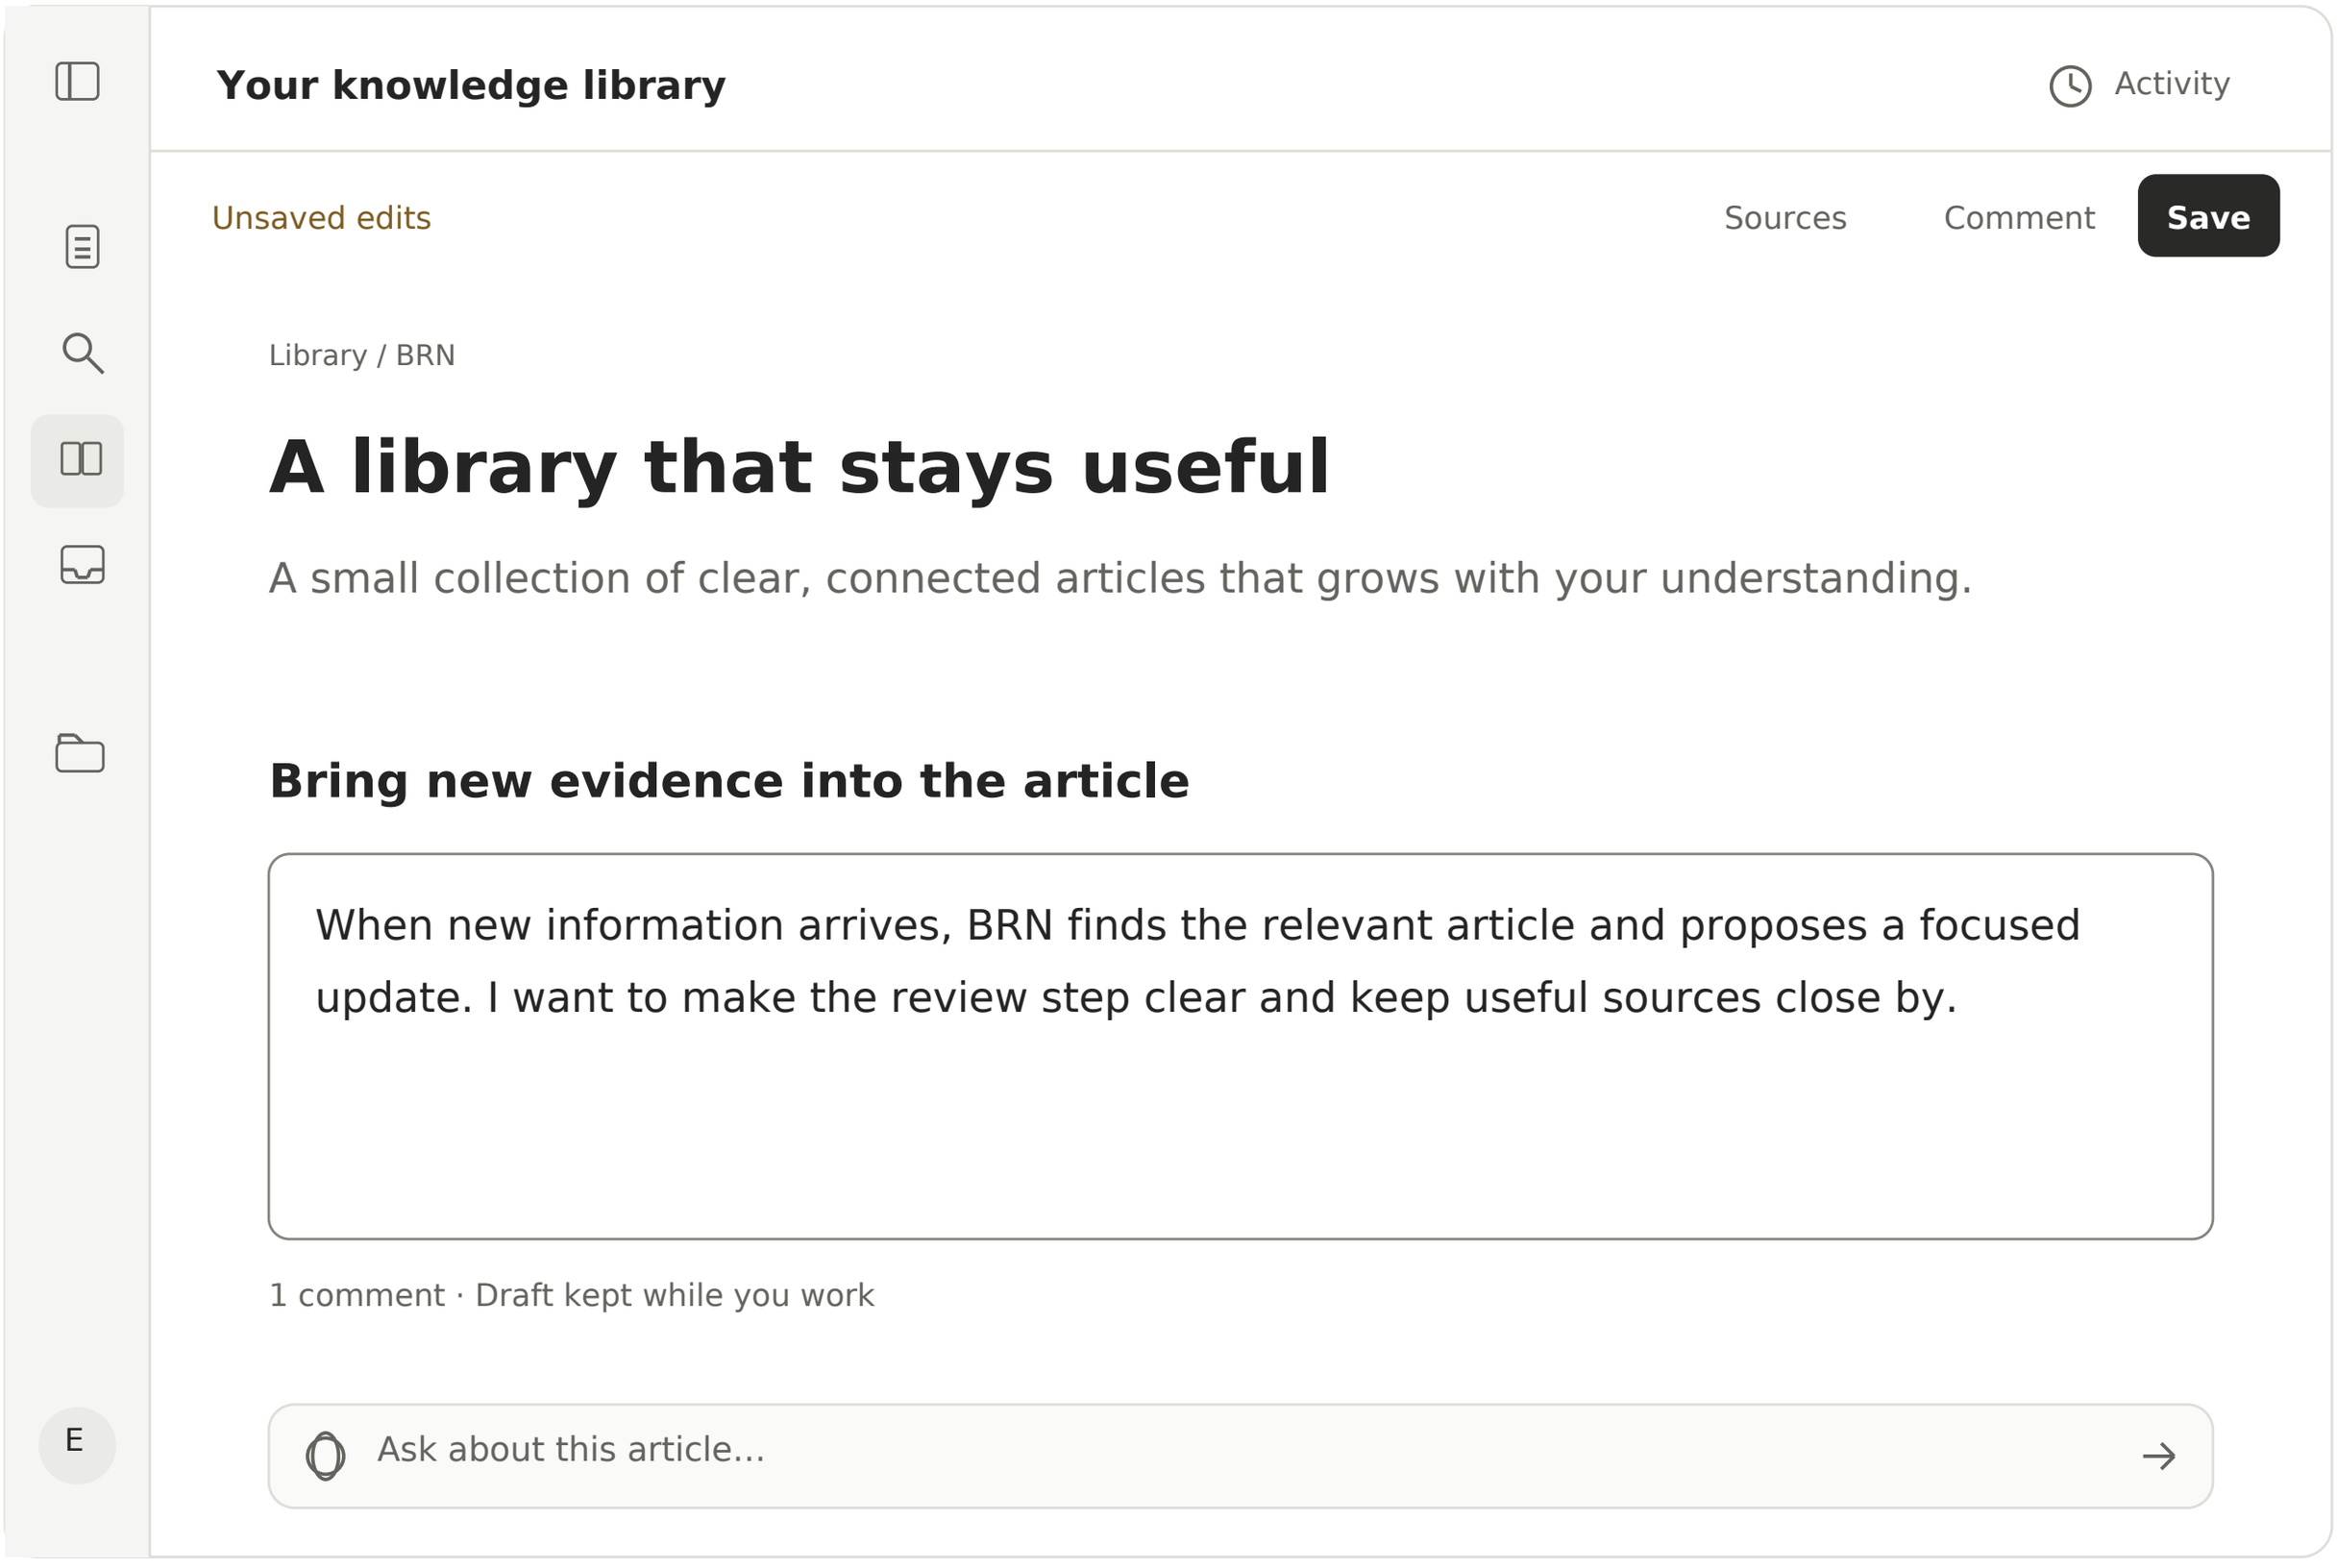

Appearance settings

System, Light and Dark are presentation preferences that preserve active work.

Compact writing workspace

At 900 by 600, keep the document usable and supporting tools collapsible.

Design system and implementation reference

Use the specification and token file for the complete behavior and value definitions.

Semantic color pairs

Role	Light	Dark
canvas	#FFFFFF	#202020
sidebar	#F5F5F3	#181818
